No answer	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

? This is the same question type as before just the orientation has changed

Semantic Differential

This is a modification of Array (Flexible Labels). You also have to choose Array (Flexible Labels) as your question type and afterwards you can part the answer which should be on the left side from the answer on the right side of the array by using a Pipe Char '|'. For example: If you want to have 'Good' and 'Evil' on the left and right of the row just write 'Good|Evil' into the answer field.
